PROFESSIONAL PROFILE

I am a highly motivated and adaptable software developer, specializing in web development. I am currently studying mobile application programming, AI, and various other software engineering skills. My dedication to continuous learning and professional growth drives me to excel as a software engineer. With a solid foundation in software development principles and technologies, I possess the knowledge and skills necessary to design and develop innovative software solutions effectively. Throughout my academic journey at Kabarak University, where I study Bachelor of Science in Information Technology, I have become proficient in various software development methodologies, programming languages, and application development tools. This expertise enables me to approach software challenges with creativity and precision. I thrive in dynamic environments, relishing the opportunity to work on diverse projects related to web and mobile application development, AI, and more. I am always eager to tackle new challenges in the field of software engineering and expand my skill set.

Professional Strengths:

- ☒ **Creative Problem Solving:** Software developers are frequently tasked with solving complex problems, whether it's debugging code, optimizing algorithms, or finding innovative solutions to meet user needs.
- ☒ **Strong Programming Skills:** Proficiency in various programming languages and paradigms is crucial for software developers to efficiently write, debug, and maintain code.
- ☒ **Web Development Expertise:** Knowledge of web development technologies like HTML, CSS, and JavaScript is valuable for creating and maintaining web applications.
- ☒ **Mobile Application Development:** Competence in mobile app development platforms and languages (e.g., Android/iOS development) is important for building mobile applications.
- ☒ **AI and Machine Learning Knowledge:** Understanding AI and machine learning concepts can be advantageous for developing intelligent software solutions, such as recommendation systems or predictive analytics.
- ☒ **Software Architecture and Design:** The ability to design scalable and maintainable software architectures ensures that applications are robust and can adapt to changing requirements.
- ☒ **Database Management:** Proficiency in database management systems (SQL, NoSQL) is crucial for storing, retrieving, and managing data efficiently.
- ☒ **Agile Software Development:** Familiarity with Agile methodologies (e.g., Scrum) enables developers to work collaboratively, iterate quickly, and respond to changing project needs.

- ☒ **Version Control Systems:** Competence in version control tools like Git helps developers manage codebase changes, collaborate with team members, and track project history.
- ☒ **Strong Analytical Skills:** Analytical skills are essential for debugging code, optimizing algorithms, and evaluating the performance of software applications.
- ☒ **Excellent Communication & Interpersonal Skills:** Effective communication is crucial for collaborating with team members, understanding project requirements, and providing clear documentation.
- ☒ **Time Management:** Time management skills help developers meet project deadlines, prioritize tasks effectively, and balance multiple responsibilities.

PROFESSIONAL EXPERIENCE

INDUSTRIAL ATTACHMENT | May – August 2023

Huduma Centre Bomet

Key Contributions:

- ☒ Providing technical support to end-users addressing hardware and software issues
- ☒ Assisting in monitoring and maintaining the company's network infrastructure
- ☒ Installation of Operating system (Windows 7, Windows 8, Windows 10, Windows 11).
- ☒ Installation of Microsoft Office application program.
- ☒ Providing technical support to end-users addressing hardware and software issues.
- ☒ Assisting users with software installations, account setups and password resets.
- ☒ Identifying root causes of issues and providing step-by-step guidance to resolve them.
- ☒ Using remote access tools to troubleshoot and resolve issues on users' computers from a centralized location.
- ☒ Guiding users through the process of granting remote access permissions.
- ☒ Logging and tracking technical support requests using the company's ticketing system and ensuring timely follow-up and resolutions of open support tickets.
- ☒ Providing basic training to users on newly installed software applications to enhance their proficiency
- ☒ Assisting with customer queries
- ☒ Troubleshooting network connectivity issues and problems of network cables.

EDUCATION

B.Sc. Information Technology | 2020 - Ongoing
Kabarak University

Kenya Certificate of Secondary Education (K.C.S.E) | 2016 - 2019

Sigor Boys High School, (B- Minus)

Kenya Certificate of Primary Education (K.C.P.E) | 2008 - 2015

Bomet Township Primary School

CERTIFICATIONS

Certificate in Data Science with R

Kabarak University

Certificate in Artificial Intelligence and Tensor flow

Kabarak University

Certificate in Health Information Systems

Centre for health Informatics Kabarak university

Certificate in computer packages, entrepreneurship, Responsible E-waste management and hardware basics

Huawei & Computer for schools Kenya

INDUSTRY EXPERTISE

- ☒ Programming Languages: Java, C++, Python, JavaScript
- ☒ Web Development: HTML, CSS, Js
- ☒ Database Management: SQL.
- ☒ Version Control: Git
- ☒ Agile/Scrum methodologies
- ☒ Strong teamwork and communication skills

STRENGTHS

- ☒ Risk Assessment and Interpretation

Knowledgeable in risk identification, analysis, planning, monitoring, reporting and control.

- ☒ Problem-Solving

Creative professional seasoned with strong analytical skills, ability to identify problems and draft simple structured solutions.

- ☒ Detail-oriented

Ability to pay close attention to detail

- ☒ Leader and collaboration

Ability to Simplify complex and ambiguous situations to deliver consistent, compelling, innovative and definitive solutions

REFEREES

Dr. Moses M. Thiga

Senior Lecturer, Information Technology & Event Organizer
